## Need help paying your bill?

We understand that sometimes you may be facing difficulties. Our hardship and water efficiency programs offer support and can give you access to concessions and utility relief grants. Where appropriate, we can also refer you to financial counselling services. Learn more at [citywestwater.com.au/billassist](http://citywestwater.com.au/billassist)

Visit [citywestwater.com.au](http://citywestwater.com.au) or call 131 691 for more details about these charges

## Our Prices 2019-20

From 1 July 2019 our prices will change in line with annual inflation rates and adjustments approved by the Essential Services Commission (the independent regulator of the water industry). To learn more about our price changes, visit [citywestwater.com.au/prices](http://citywestwater.com.au/prices)

## Concession Information

Do you hold a current Health Care, Pension Concession or Gold Card? If so, you might be eligible for a concession on your account. Call us on 131 691 or learn more at [citywestwater.com.au/concessions](http://citywestwater.com.au/concessions)

## Are you a tenant moving out of a property?

Simply complete our online form to tell us you're leaving at least two business days before you move. We'll arrange a final meter read and finalise your account. You can access the form at [citywestwater.com.au/changeoftenancy](http://citywestwater.com.au/changeoftenancy)

## Is your household on Target 155?

Your average daily water cost for this bill is \$1.66

## Average daily use per person

To find out average daily use per person, refer to the line which indicates the number of people in your home.

The right of City West Water to proceed for recovery of outstanding charges is not prejudiced by the service of this notice

YOUR WATER NEWS SOURCE

City West Water™

JULY-SEPTEMBER EDITION 2019

**David Ryan**

Managing Director  
City West Water

In this edition, we've included a snapshot of how we invest your money from water bills and some 2018-19 milestone projects.

As a regulated state-owned business we only collect the money we need to make sure we deliver safe, reliable and accessible services to our customers.

What you might not know is the prices we charge are regulated by the Essential Services Commission. This ensures the money we receive is no more than we need to prudently operate our business.

**The great news is our residential water bills remain one of the lowest average water bills in any capital city in Australia.**

Enjoy the read.

## Where your money goes...

### Water Services

Payment to Melbourne Water for the supply, treatment and transfer of 110 billion litres of water including transfer of 86 billion litres of sewage and trade waste to the Western Treatment Plant (Werribee)

53%

27%

Delivering and maintaining 9,000+km of local water and sewer pipes

Local sewage treatment and delivery of recycled water

6%

6%

IT and phone system operations

Customer services and community programs

State Government

Licence fees, income tax and Environmental Contribution

4%

4%

### Other government authority charges\*

#### Parks Charge

We collect this charge on behalf of the Department of Environment, Land, Water and Planning.

#### Waterways and Drainage Charge

We collect this charge on behalf of Melbourne Water.

\*These charges are not City West Water charges and neither of these charges are shown in the pie chart above.

Visit [citywestwater.com.au/prices](http://citywestwater.com.au/prices) to find out more.

## Payment plans to suit your needs

Whether you want peace of mind by smoothing your bill across the quarter, prefer sticking to a budget or using Direct Debit, we have a range of solutions on offer.

### EasyWay

Make weekly, fortnightly or monthly payments

### Direct Debit

Set up regular Direct Debit bill payments

### Centrepay

Regular bill payments can be deducted directly from your Centrelink payments

"With lots of bills coming in at different times, I set up Direct Debit for my water account. Set and forget, works for me!"

**Yogen, tenant, Sunshine**

"I signed up to your monthly Easyway plan and pay by BPAY. It's great. I never worry about missing a payment."

**Karolina, homeowner, Taylors Lakes**

## Our community

As custodians of water and wastewater infrastructure and resources, we are in a unique position to facilitate and partner with stakeholders to enable wider health, economic, social and environmental benefits for our community. Here's an update about some of our 2018-19 milestone projects.

## Creating resilient cities

We are a leading partner in liveability projects designed to enhance our local environment and create greater tree canopy cover across Melbourne's western suburbs. Key initiatives include the multi-award winning **Greening the West**, a cross-regional partnership involving council, government agencies and community that aims to deliver positive health benefits through urban greening. Recent success includes planting **one million trees** across Brimbank, Hobsons Bay, Maribyrnong, Melton, Moonee Valley, Wyndham and Point Cook Coastal Park as part of the **1 Million Trees Project**.

## Zero emissions

We joined **12 leading Victorian water corporations** in a new energy partnership to reduce greenhouse gas emissions, reduce operating costs and help keep bills down. From October the group will purchase solar power from Kiamal Solar Farm in north-west Victoria. The innovative venture is the first of its kind for Australia's water sector and will operate under a new organisation called Zero Emissions Water Ltd.

## Greening the Pipeline

**Greening the Pipeline** is a collaboration between our organisation and Melbourne Water, Wyndham City Council, VicRoads and supported by **Greening the West**. The project is transforming the heritage-listed Main Outfall Sewer into a green parkland to improve the liveability of Wyndham, Brimbank and Hobsons Bay communities. In collaboration with our partners, stormwater will be harvested at a key open space site known as Arndell Park providing a greener recreational space for the local community to enjoy.

## Leaders in stormwater harvesting

We're investing **\$12 million** over five years in sustainable stormwater projects. Since launching our fund we have partnered with council on **six leading projects** including Melbourne's National Tennis Centre, the State Baseball and Softball Centre in Altona Meadows and Woodlands Park in Essendon. By using stormwater to irrigate local public areas, we're replacing the need to use valuable drinking water. Our collaborative stormwater projects will encourage greater physical and recreational activities and ultimately improve the health outcomes for our community.

## Machine learning

We've been embracing machine learning during 2018-19 and getting some exciting results. Our machine learning model is streamlining our ability to find defects in sewer pipes and could save our teams hundreds of hours each year in having to manually sift through CCTV footage to identify cracks and tree roots in our pipes.

## Resilient water supply for Melbourne

Over the past five years, Melbourne has experienced warmer, drier weather conditions with less rain, which has led to water storage levels dropping to around 50% of capacity.

The Victorian Desalination Plant increases the resilience of Melbourne's water supply network, supplementing water from our protected catchments. The Desalination Plant has the capacity to provide Melbourne with one-third of its water needs and in 2019-20, 125 billion litres of water has been ordered to help our storages stabilise and recover.

From 1 July 2019, all customer water usage will cover the cost of the water ordered from the Desalination Plant, with an average cross-Melbourne quarterly residential bill increase of about \$2.50.
